

REMARKS

Upon further consideration and review of the trademark records of the United States Patent and Trademark Office, it has been determined that the proper trademarked material identified in the specification is "MEGAFACE" as can be understood from the attached registration information. The instant Amendment makes this revision in the specification and at the same time provides a correction of the material "PLURONIC" and the common name for "butyrolactone".

Since the instant Amendment only requests editorial corrective revisions to the specification, applicants respectfully submit that the Amendment is proper in all respects and therefore request consideration and entry thereof.

Should the Examiner wish to discuss any aspect of the present application, she is invited to contact the undersigned attorney at the number provided below.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
